

1.6.2 Awareness-raising

Document Control

Title:	Initiate Awareness-raising Activities	Document Number:	1.6.2
Issue / Revision status:	Issue 1: Approved		
Author:	Guy Beards	Date	10/7/09
Approval:	Sustainable Development Management Champions	Date:	10 th July 2009

Summary

College-wide communications using e-mail and the staff newsletter have included information concerning EAUC membership, Green Gown awards and the Environmental Management System. Space is available in the Staff Newsletter for these issues.

The Environmental Co-ordinator has addressed Caring for the Campus meetings at Salisbury and Lackham, and received good feedback. Arrangements to address meetings at Chippenham and Trowbridge are being made.

College web site pages are in preparation:

Consultation held with Student Environmental Representatives, and ideas incorporated into EMS plan.

Staff Development delivered on four main sites 14 – 17 July 09. These sessions encompassed causes and effects of global warming, pollution, waste and biodiversity issues, College EMS development and practical ideas for making improvements.

The launch of the newly awarded waste and recycling contract in Autumn 2009 will raise awareness of the need and means to recycle; similar opportunities will be utilised as other cross-campus contracts are awarded for catering, security and resource supply.

A garden area is planned for Trowbridge utilising recycled materials, which will provide ongoing awareness of Wiltshire College's environmental aspirations.
