

PRICE LIST 2025-2026

The Aspire Academy
of Hair & Beauty

Welcome to The Aspire Academy of Hair and Beauty

Our salons are located across three campuses: Chippenham, Salisbury and Trowbridge.

Treat yourself to a luxurious experience in one of our professional salons. Our students, guided by experienced and qualified lecturers, use top industry brands such as Wella Professional for hair care and Monu Professional for skincare to deliver a wide range of treatments - all at affordable training prices.

Please note that we are a training establishment, and our pricing reflects the educational nature of the services provided. Appointment durations may vary - they may be longer or shorter than those in commercial salons, as learners are developing their skills under the supervision of experienced lecturers.

We kindly ask all clients and models to review our updated **Client Code of Conduct**, available on the college website (www.wiltshire.ac.uk/student-life/aspire-salons). If you are unable to access it online, a member of staff will be happy to provide you with a printed copy.

Cancellation Policy and Missed Appointments

We understand that plans can change. If you need to cancel your appointment, please provide at least 24 hours' notice.

Please be aware that **frequent cancellations or repeated missed appointments ('no shows')** may result in you being unable to continue as a client at The Aspire Academy of Hair and Beauty.

Thank you for your understanding and cooperation.

Facials

Level 2 Monu Aromatic Facial (1 hour)

This luxury treatment provides mask therapy and an exfoliation which are combined to promote skin radiance.

A soothing massage to the face, neck and shoulders will leave you feeling calmed and relaxed. A soothing and beneficial treatment that is suitable for all skin types. A facial that will protect against life's daily stresses with a treatment that incorporates a soothing facial massage. Packed full of ingredients that will help smooth, repair and aid absorption which will leave a protected film over the skin.

£20

Level 3 Monu Algae Facial (1 hour 15 mins)

The Monu Algae Facial is expertly formulated to help reduce the appearance of fine lines and wrinkles on your skin. The Algae mask provides a lifting and relaxing action with minerals and trace elements to revitalise the skin. The firming action and nutrients in the Algae Face Mask refresh and revitalise skin, leaving a rejuvenated complexion. The active ingredients will feed the skin with vitamins and minerals to encourage skin health. Perfect for Mature and Dry Skin.

£32

Level 3 Monu Collagen Facial (1 hour 15mins)

Effectively reduce the signs of ageing with the intensive Hydra Lift Collagen Facial. Formulated using freeze-dried collagen, this unique treatment delivers an instant boost of hydration to rapidly increase the skin's ability to retain moisture. Wrinkle depth is reduced, and fine lines smoothed for a refreshingly younger look.

This luxury treatment is ideal for those wishing to treat dry, dehydrated or prematurely aged skin in one simple step. Providing instant and concentrated hydration to the face and neck, our use of a 99% Collagen Veil quickly plumps and firms skin whilst restoring optimum moisture levels.

£32

Beauty Salon Prices Level 3 Advanced Treatments

Facial Treatments

Galvanic

The Galvanic facial improves your skin in two ways. Firstly a removal of blockages through a deep cleanse followed by a tailor made gel to be pushed into your skin to focus on the skin's individual needs. This facial is designed for anyone wanting to improve overall skin texture and appearance.

Micro-current

Known as the non-surgical face lift, Microcurrent has been used in medicine for over 25 years. Known to improve the appearance of fine lines, it also lifts muscles and helps to tighten the skin's tissues. This is an excellent facial for those wanting to prevent the natural signs of ageing. For best results, we would recommend a course of 6–12 treatments on a weekly basis.

Each treatment £20

Course of 6 treatments £100

Crystal Clear Microdermabrasion

This is a clinically proven and celebrated resurfacing treatment that offers flawless results for problem skin, pigmentation, scarring, lines and wrinkles. For best results, a course of six treatments is advised.

Each treatment £30

Or 6 treatments £150

Vacuum Suction

Specialist treatment to help improve fluid retention and circulation within the skin. Your facial will be performed using a ventouse to glide over the skin's surface to drain fluid to the nearest lymph nodes.

Also an excellent treatment to assist in the removal of blocked pores.

High Frequency

Have a choice of either direct or indirect high frequency facial treatments.

Indirect high frequency is designed to warm and relax skin tissues, increase circulation and improve moisture balance in the skin.

Direct high frequency assists in helping to destroy bacteria present on the skin to improve problematic skin types. During your electrical facial your therapist will use Decleor products and specialist equipment to suit your particular needs; e.g. facial toning, cell regeneration or the removal of impurities. For best results, we would recommend a course of six treatments over a period of six weeks.

Each treatment £15

Course of 6 treatments (for best results) £75

Body Treatments

Galvanic Body Treatment

Designed to improve the appearance of cellulite, treating either the thighs and waist or buttocks, this treatment targets fatty deposits present in the area.

This treatment works best with vacuum suction to eliminate toxins for a quicker improvement in the appearance of the skin's surface.

Each treatment £6 / 6 treatments £30

G5 Mechanical Massage

The G5 Massager works on breaking down fatty deposits and cellulite and dispersing this with excess fluid through the lymphatic areas. This process allows an instant inch loss and a detox effect, as well as improvement in the skin elasticity, collagen flow and blood circulation.

Part body £7 / full body £10

Holistic Treatments

Massage

Relax your mind and body. Body massage is designed to relieve muscle tension, eliminate toxins and improve circulation bringing oxygen and nutrients to skins surface.

Half body massage £15
Full body massage £20

Faradic

For clients wanting to target specific muscle groups, Faradic is very effective in creating tone and muscle definition. Using pads to target precise muscles, Faradic is designed to tighten and strengthen, resulting in inch loss due to the muscles being firmed and toned.

For best results we would recommend having a course of six treatments weekly in conjunction with a healthy diet.

Part-body (using five sets of pads) £7

Full-body (using ten sets of pads) £10

Vacuum Suction

Vacuum body treatments are designed to improve fluid retention through the elimination of toxins and waste product present in the area. An excellent treatment to improve circulation and improve the skin's appearance.

20 minute session £6 / 6 treatments £30

Stone Therapy

Working with a combination of hot and cold stones, this treatment soothes sensory nerve endings, relaxes areas of muscle tension and can relieve symptoms of stress.

Part body massage £15
Full body massage £20
