TR – Trowbridge Campus

Welcome

We are Wiltshire College & University Centre (WCUC), and we'd love to be part of your next step.

Whether you're leaving school, progressing to a new course or thinking about what comes next, you'll find a wide range of full-time courses across different subjects and levels, helping you choose the path that's right for you and your future.

By choosing WCUC, you'll learn from expert tutors with real industry experience in realistic working environments, from salons and restaurants to laboratories, workshops and business spaces.

You'll also be part of a welcoming College community with strong links to employers, helping you build the skills, confidence and experience to move forward into further study, an apprenticeship, university or employment.

I hope to see you at one of our open events, where you can explore our campuses, meet our staff and get a real feel for college life.

We are your next step.

Iain Hatt
Principal & CEO

Why choose us?

Whether you already know what you want to do or you're still working it out, this is where it starts. You'll build skills, gain real experience and grow the confidence to take your next step.

We are more than a classroom

Here, learning goes beyond lessons. You'll train in real-world environments, work with industry-standard equipment and develop the skills employers are looking for.

We are where futures begin

With more than 80 courses across four campuses, expert tutors and strong employer links, you can choose a course that fits your interests, your goals and the way you learn best.

Our students keep moving forward. Some progress to higher-level courses at College, while others head to university, including our own University Centre. Others take on apprenticeships or step straight into employment, using their skills to start building their careers.

Real-world learning

Learn in professional environments, from workshops, salons and studios to kitchens, laboratories and specialist land based spaces.

Industry connections

Build experience through employer projects, placements and industry links that give you a real understanding of the world of work.

Support to succeed

From personal tutors to careers guidance and wellbeing support, we're here to help you grow in confidence and achieve your goals.

Local & accessible

Stay local and study at one of our Wiltshire campuses, with great bus and train links, specialist facilities and opportunities to take you further.

80+ courses | 4 campuses | £40m+ invested in facilities

Our campuses

We are one college, four campuses

Wherever you study, you'll be part of one college community - with each campus offering its own specialist facilities and opportunities.

From creative studios and healthcare training facilities to a working farm and digital innovation hubs, you'll have access to industry-relevant spaces designed to help you succeed. With campuses across Wiltshire and strong links to local employers, you'll be well connected to your future.

Chippenham

A modern, vibrant campus situated in the heart of Chippenham, with a strong community feel and good links to local employers. Courses are available in a wide range of subjects, where you'll learn in modern teaching spaces designed to prepare you for the workplace and your chosen career.

Salisbury

Study in the historic city of Salisbury, where you'll build skills and confidence in a supportive environment. Following a £14 million redevelopment, you'll learn in modern, industry-relevant spaces, with links to local employers and organisations.

Lackham

Set in a 500-acre estate and home to our Wiltshire Business School and Green Skills Innovation Centre. Lackham offers a unique environment for land based, animal, environmental and business courses, with access to a working farm, specialist facilities and outdoor learning spaces.

Trowbridge

Offering a wide range of courses and specialist facilities, Trowbridge is undergoing an exciting redevelopment to create even more opportunities for hands-on, industry-focused learning. Alongside Tech Trowbridge, our specialist digital and esports hub, new facilities will include a School of Digital & Creative Arts and an expanded Construction Skills Centre.

Together, our campuses give you the space to learn, grow and take your next step.

Lackham Campus

Salisbury Campus

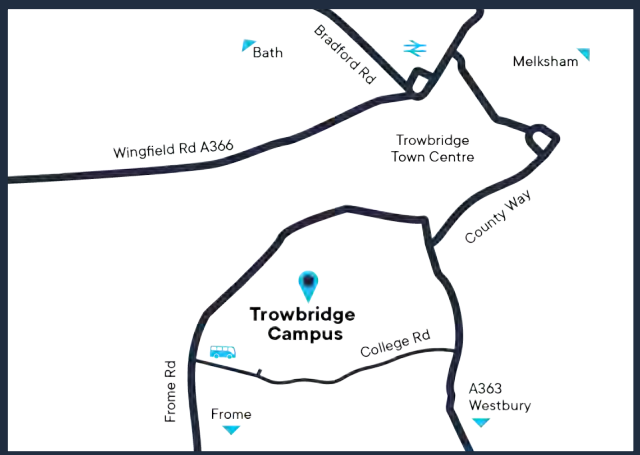

Trowbridge Campus

Getting to us

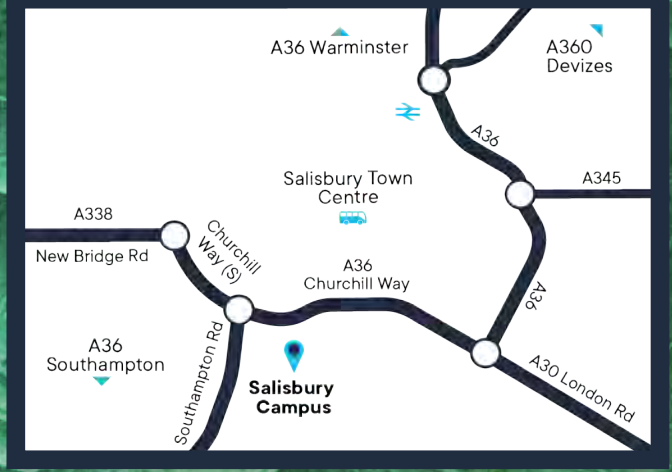

Bus Stop

Train Station

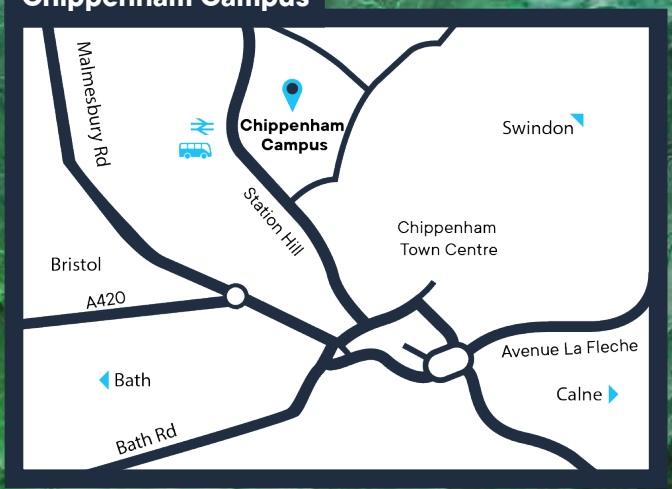

Trowbridge Campus

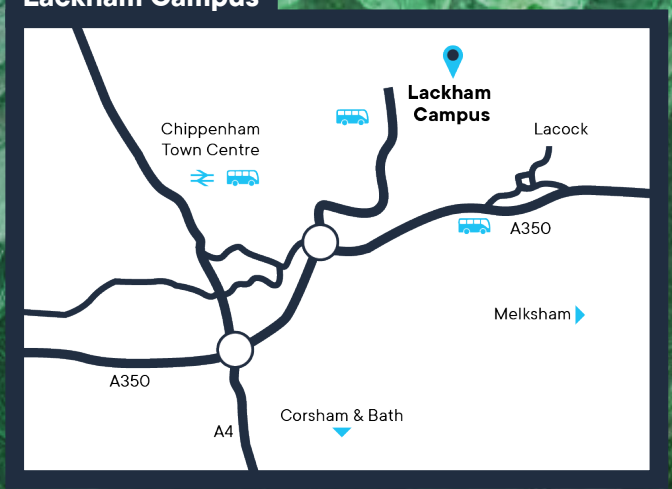

Salisbury Campus

Chippenham Campus

Lackham Campus

Please note:
These maps are not to scale and are for guidance purposes only

Chippenham Campus

By bus:

Chippenham is well connected by bus routes from Malmesbury, Swindon, Devizes, Frome, Trowbridge, Melksham and nearby villages. Services stop directly outside or within a short walk of campus.

By Train:

Chippenham station is located directly opposite the campus, just a 2-3 minute walk away. Regular services run to and from Bath, Bristol, Swindon and Reading.

A Chippenham-Lackham shuttle bus runs between Chippenham town centre, the railway station and Lackham campus, with services timed for the start and end of the college day.

Lackham Campus

By Bus:

Lackham has dedicated college buses and local bus routes from nearby towns, including Trowbridge, Melksham, Frome, Devizes, Bath, Marlborough, Malmesbury and Chippenham.

By Train:

The nearest train station is Chippenham. Students can take the shuttle bus or dedicated college buses directly to Lackham.

Salisbury Campus

By Bus:

Salisbury has bus routes from across Wiltshire, Hampshire and Dorset. Services stop at Salisbury city centre which is just a short walk to campus.

By Train:

Salisbury station is approximately 1 mile from campus, around a 20-minute walk. Direct services include: Southampton, Portsmouth, Bath Spa and Bristol Temple Meads.

Trowbridge Campus

By Bus:

Trowbridge has regular bus services from nearby towns and villages, including direct routes from Chippenham, Bath, Melksham, Frome, Devizes, Warminster and Westbury. They stop directly outside or within a short walk of campus.

By Train:

Trowbridge train station is approximately 1.2 miles from campus, around a 20-25 minute walk. Regular services include: Bath Spa, Bristol Temple Meads, Westbury and Swindon.

Car, bikes & mopeds

Free parking is available at all campuses, including EV charging points (subject to availability). All campuses also have secure bike racks and dedicated moped parking areas.

Our facilities

We are learning in real-world environments

From engineering workshops and construction bays to professional kitchens, salons, studios and specialist land based facilities, you'll learn in spaces that reflect the real world of work.

Tech Trowbridge

A specialist digital and esports hub with high-spec equipment and immersive learning spaces.

Healthcare Zone

A realistic clinical training environment including a hospital ward, ambulance and simulated care settings.

Engineering & construction

Industry-standard workshops and construction centres where you'll build practical skills from day one.

The Aspire Academy

Professional hair and beauty salons open to the public, giving you real client experience.

The White Horse & The Wessex Restaurants

Real kitchens and restaurant spaces, so you can serve customers and build confidence.

Creative & media

Studios, theatres and performance spaces for film, music and the arts.

Land based & animal care

A working farm, animal centre and outdoor learning environment at Lackham.

Wiltshire Business School

A professional setting focused on developing real business skills and industry experience.

Beyond the classroom

Some of our learning takes place in real workplaces, performance venues and specialist environments – giving you experience that goes beyond campus.

Real experience in real environments

- Perform in professional venues through links with creative partners
- Work with horses at a professional equestrian centre
- Train, coach and compete in real sport environments
- Serve customers in award-winning restaurant settings
- Work with clients in on-site hair and beauty salons
- Learn on a working farm with real animals and machinery

These experiences help you build confidence, develop skills and understand what it's really like to work in your chosen industry.

Facilities for the future

We are preparing for what's next

We're investing in new spaces, industry-standard technology and innovative teaching to make sure you're ready for the careers of the future.

Over £40m invested in facilities across campuses over the last 5 years.

Green Skills Innovation Centre

Hands-on training in renewable energy, sustainable construction and low-carbon technologies, preparing you for careers in a more sustainable future.

Eco House

A live project with local employers, transforming a three-bedroom cottage at Lackham to meet net zero standards while developing your green construction skills.

Tech Trowbridge

Our expanded digital and esports hub, with high-spec equipment and immersive spaces for gaming, content creation and digital technologies.

Healthcare Zone

A realistic clinical training environment, including a hospital ward, ambulance and simulated care settings, helping you build skills and confidence for healthcare careers.

Trowbridge campus investment

Our Trowbridge campus is evolving, with over £10m invested in a new School of Digital & Creative Arts, a state-of-the-art Construction Skills Centre and improvements to the campus environment. Work has already started and new facilities will be opening in 2027, giving students more opportunities to learn in modern, industry-focused spaces.

Life at college

College is about more than just your course - it's about the experiences you have along the way.

Alongside your studies, you'll have opportunities to take part in trips, events and enrichment activities that bring your learning to life and help you build confidence outside the classroom. You'll also find plenty of spaces to relax, socialise and recharge - including communal student areas and on-site Starbucks at every campus.

Trips, visits and real experiences

Take part in trips, visits and residentials in the UK and abroad, giving you real insight into your industry and the chance to experience new places and cultures.

Industry speakers and guest experts

Learn from industry professionals who visit the college to share their experience, giving you a real understanding of what it's like to work in your chosen field.

Enrichment and student life

Get involved in enrichment activities, clubs and events, meet new people and make the most of your time at college.

Student Voice Network

Have your say and help shape your college experience through student engagement activities and opportunities to get involved.

Events, awards and showcases

Take part in performances, exhibitions, competitions and awards that celebrate your achievements and give you the chance to share your work.

Whatever your interests, you'll have the chance to try new things, meet new people and make your college experience your own.

Choose how you learn

There's more than one way to reach your goals. Choose the route that suits how you like to learn and where you want to go next.

Vocational courses

Learn by doing

Build practical, career-focused skills through hands-on learning, projects and real-world experience.

Courses available from Entry Level to Level 3

T Levels

Study + industry experience

Combine classroom learning with a substantial industry placement, developing the skills employers are looking for.

80% classroom | 20% industry placement

Apprenticeships

Earn while you learn

Get paid, gain a nationally recognised qualification and develop your skills in a real workplace.

80% workplace | 20% off-the-job training

Support along the way

Whichever route you choose, you'll have support to help you succeed and take your next step.

Scan to explore your study options

Entry requirements

We are ready when you are

WCUC offers a wide range of subjects from Entry Level through to university level. Based on your qualifications, you can study on a course at the right level to achieve. Enrolment on any course at Level 1 or above requires GCSEs in both English and maths. Below are WCUC's standard course entry requirements – please check individual courses on the website for specific qualification entry requirements.

Entry Level

Designed to build confidence

- Entry requirements – There are no formal entry requirements but applicants are required to attend an interview.

What next?

- Students can progress onto a Level 1 course at WCUC.

Level 1

Equivalent to GCSE grade 3 to 1

- Entry requirements – Typically, four GCSEs at grade 2.

What next?

- This is your first step towards a Level 2 course or an apprenticeship.

Level 2

Equivalent to five GCSE grades 9 to 4

- Entry requirements – Typically four GCSEs at grade 3 including English and maths, or successful completion of a relevant Level 1 course and English & maths at grade 3.

What next?

- Students can progress onto a Level 3 course, an apprenticeship or into employment.

Level 3

Equivalent to 2 or 3 A-Levels

- Entry requirements – Four GCSEs at grades 4-9 including English and maths, or Merit or Distinction in a related Level 2 course and English & maths at grade 4 or above

What next?

- Students can progress onto further study at university, an apprenticeship or skilled employment.

T Levels

Equivalent to 3 A-Levels

- Entry requirements – Five GCSEs at grades 4-9 including English, maths and science, or Merit or Distinction in a related Level 2 course and English & maths at grade 4 or above.

What next?

- Students can progress onto further study at university, an apprenticeship or skilled employment.

Didn't get the results you expected?

If you don't achieve the required GCSEs to enrol on your chosen course, we will talk you through your options and help you find an alternative course when you attend your enrolment appointment.

How to apply

We are here to help

1

Explore your options

What do you enjoy? What is your dream career? And what course will help you get there?

2

Visit us

Come to an open event and see what it's like. Meet our lecturers, see facilities and get a feel for college life.

3

Apply

You can complete an application form online or at one of our open events.

4

Interview

Depending on your course, you may require an interview, but we'll be in touch to let you know.

5

Offer

You'll receive an email with a conditional offer of your place with us, and also receive an enrolment pack.

6

Enrol

Join us for enrolment once you get your results – this is where you officially become a college student.

7

Your first step

Start your first college day and enjoy the student journey.

Our Admissions team will support you throughout the application process.

Scan the QR code to apply

Support for you

We are here to help you succeed

Starting college is an exciting time, and we're here to support you every step of the way.

Whether you need help with your studies, your wellbeing or planning your future, there will be a team ready to help.

Personal support

Your dedicated Tutor will support your progress and help you achieve your goals throughout your time at college.

Wellbeing and counselling

Looking after your wellbeing is important. We offer confidential wellbeing support and access to free counselling if you need it.

Safeguarding

Your safety is our priority. Our dedicated Safeguarding team is here to help you if you have any concerns.

Learning support

Our Inclusion & Support team provides personalised support for students with additional learning needs - helping everyone to achieve their full potential.

Student Life

Make the most of college through enrichment activities, clubs, events and student voice opportunities where you can help shape college life.

Careers guidance

Our Careers team offers expert guidance, workshops and one to one sessions to help you plan your next steps - whether it's university, an apprenticeship or employment.

Financial support

You may be eligible for financial assistance with travel, meals, equipment and other course-related costs.

Accommodation

If you're travelling from further afield, student accommodation is available at our Lackham and Salisbury campuses.

English and maths

If you need to improve your English or maths qualifications, we will support you to achieve the skills you need for your future.

What do you want to be?

Maybe you already know exactly where you're heading. Maybe you have absolutely no idea. Either way, that's OK.

Start with what you're interested in. What do you enjoy? What are you good at? What kind of future sounds exciting?

Your interests could take you anywhere.

I want to work with animals and the environment...

Discover careers in animal care, agriculture, conservation, horticulture and the countryside.

I want to make a difference...

Explore careers in healthcare, early years, public services, social care and more.

I want to work with people and ideas...

Explore careers in business, law, sport, travel, hospitality and more.

I want to build, fix and make things work...

Discover engineering, construction, automotive, manufacturing and technical careers.

Not sure yet? Take the quiz

Our Career Pathways Quiz can help you discover careers and courses that match your interests. Scan the QR code and see where your future could take you.

If you need help making your choice, contact our Admissions team via admissions@wiltshire.ac.uk

"I'd like to start an apprenticeship as a general farm worker. I've grown up around the industry, so working with animals and machinery has always been something I've enjoyed. The course has helped me develop hands-on skills and confirmed that this is the career path I want to follow."

- Noah, Level 2

WE ARE Agriculture

Agriculture

We are working with the land

Want to work in the farming industry? Our agriculture courses combine hands-on learning with the knowledge and skills you need for a career in modern farming.

Available at: Lackham

Train in a real farm environment

Train at Lackham's Home Farm, with access to a modern AgriTech Centre, agricultural simulation suite, robotic dairy and working livestock. This includes dairy herds, sheep and crop production.

Scan to explore agriculture courses

Where it can take you:

- Stockperson
- Dairy Worker
- Farm Manager
- Tractor Driver
- Agriculturist
- Animal Scientist
- Agricultural Business Consultant

Progression

Students progress to employment, university or higher apprenticeships in subjects such as agriculture, animal science, livestock production and farm management.

Full-Time Courses	Level	Location	Duration
Agriculture	Level 1	LA	1 year
Agriculture	Level 2	LA	1 year
Agriculture, Environmental and Animal Care – Livestock Production	T Level	LA	2 years

"My goal is to build a career working with animals, whether that's by going straight into the industry or progressing to higher education. I've always loved caring for animals, and the course has given me the opportunity to gain even more hands-on experience while developing my knowledge of the sector. The combination of practical learning and theory has confirmed that this is the career path I want to follow."

- Oscar, T Level

WE ARE Animal Care

Animal Care

We are working with animals

Turn your passion for animals into practical skills. Learn how to care for animals safely, responsibly and professionally.

Available at: Lackham

Build real skills through daily care

Experience our zoo-standard enclosures and animal resource centre - home to a wide range of exotic and domestic animals. From rabbits and guinea pigs, to lemurs, marmosets, birds and reptiles you'll gain hands-on experience with many different species.

Where it can take you:

- Zookeeper
- Veterinary Nurse
- Rescue Centre Worker
- Animal Welfare Officer
- Conservation Researcher

Scan to explore animal care courses

Progression

Students move on to university to study in areas such as animal science, animal behaviour and veterinary nursing.

Full-Time Courses	Level	Location	Duration
Animal Care	Level 1	LA	1 year
Animal Care	Level 2	LA	1 year
Animal Care and Management	T Level	LA	2 years

"My goal is to progress to university and build a career in prop design. I've particularly enjoyed developing my 3D art skills and creating large-scale, tangible pieces. The support from the lecturers and the freedom to explore different techniques have helped me grow in confidence as an artist and prepare for my next step."

- Lily, Level 3

WE ARE Art & Design

Art & Design

We are free to be creative

Develop your ideas and build your skills through practical, studio-based learning. Our art and design courses give you the freedom to experiment while building your creative confidence.

Available at: Chippenham, Salisbury and Trowbridge

Learn from practicing artists

Study in well-equipped studios with lecturers who are practicing artists. Showcase your work through exhibitions and build a portfolio for your next step.

Where it can take you:

- Advertising
- Photographer
- Animator
- Illustrator
- Fashion Designer

Scan to explore art and design courses

Progression

Students have joined some of the country's leading art institutions to study subjects like fine art, fashion design and photography.

Full-Time Courses	Level	Location	Duration
Art, Design and Media	Level 1	CH/SA/TR	1 year
Art and Design	Level 2	CH/SA/TR	1 year
Creative Practice: Art, Design and Communication	Level 3	CH/SA/TR	2 years
Foundation Art and Design	Pre Degree	SA/TR	1 year

WE ARE Automotive

"My goal is to work in a garage after college and build a career in the automotive industry. I've always enjoyed getting hands-on, taking things apart and figuring out how they work. The course has helped me develop the practical skills and knowledge needed to turn that interest into a future career."

- Ciaran, Level 2

Automotive Maintenance

We are keeping vehicles moving

Get hands-on with vehicles and build the skills to diagnose, repair and keep them running. You'll learn how vehicles work and how to diagnose faults through real workshop experience.

Available at: Chippenham, Salisbury and Trowbridge

Get hands-on in real workshops

Train in industry-standard workshops using professional tools and equipment, working on real vehicles and systems.

From fault finding to full repairs, you'll learn how to keep vehicles on the road.

Scan to explore automotive maintenance courses

Where it can take you:

- Automotive Engineer
- Performance Car Specialist
- Body Repairs Specialist
- Service Technician
- Paint Technician

Progression

Students progress into apprenticeships or roles in local garages, dealerships and specialist workshops.

Full-Time Courses	Level	Location	Duration
Vehicle Maintenance (light vehicles)	Level 1	CH/SA/TR	1 year
Vehicle Inspection	Level 2	CH/SA/TR	1 year

"After college, I plan to explore business further, either at university or by going straight into employment. What I enjoy most about the course is the variety – it has introduced me to lots of different areas of business and helped me discover what interests me the most. I've also enjoyed working in teams and collaborating with others on projects, which has helped me build valuable skills for the workplace."

- Grace, T Level

WILTSHIRE BUSINESS SCHOOL • WILTSHIRE BUSINESS SCHOOL •

WE ARE Business, Finance & Management

Business, Finance & Management

We are building business skills

Get ready for the world of business, building the skills to lead, manage and make decisions that matter.

Available at: Lackham, Salisbury and Trowbridge

Put your skills into practice

Work on projects, explore business ideas and apply what you learn in practical ways. You'll develop problem-solving, teamwork and decision-making skills, while building the confidence to think like an entrepreneur.

You can study as part of Wiltshire Business School, with strong links to local employers and opportunities to apply your learning in real-world settings.

Where it can take you:

- Accounting Clerk
- Business Advisor
- Budget or Data Analyst
- Marketing Executive
- Human Resources

Progression

Progress to university, an apprenticeship or start a career in a wide range of business sectors.

Scan to explore business, finance and management courses

Business	Level 2	SA/TR	1 year
Marketing	T Level	LA	2 years
Accounting	T Level	LA	2 years
Business, Management & Administration	T Level	LA/SA/TR	2 years

"I'd love to run a kitchen one day. Cooking has always been a passion of mine, and the course has given me the opportunity to develop skills across a wide range of dishes and techniques. I'm excited to be starting my career at Longleat as a chef, with the goal of progressing into leadership and management roles in the future."

- Neo, Level 3

WE ARE Catering & Hospitality

Catering & Hospitality

We are ready for service

Start your career in catering and hospitality with hands-on, practical learning. You'll prepare, cook and present food while learning how professional kitchens and hospitality environments operate.

Available at: Salisbury and Trowbridge

Step into real kitchens

Train in award-winning kitchens and gain experience serving real customers in our on-site restaurants. You'll build practical skills, work as part of a team and learn how to deliver high-quality food and service.

Gain experience by meeting professional chefs at venues such as Bowood House, Bishopstrow House and Lainston House, developing your skills in real hospitality environments.

Where it can take you:

- Chef
- Food Service Assistant
- Front of House
- Hotel and hospitality roles
- Catering Manager

Progression

Students have moved on to apprenticeships or employment within hotels and restaurants.

Scan to explore catering and hospitality courses

Introduction to Culinary Skills	Level 1	SA/TR	1 year
Professional Cookery	Level 2	SA/TR	1 year
Advanced Professional Cookery	Level 3	SA/TR	1 year

"I'm looking forward to progressing onto a T Level and building my industry experience. I've always been interested in IT, but the course has shown me that programming is the area I enjoy most. It's helped me develop the skills and confidence to continue my journey towards a career in the industry."

- Gordon, Level 2

WE ARE Computing & IT

Full-Time Courses	Level	Location	Duration
ICT Information Creative Technology	Level 2	CH/SA/TR	1 year
Creative Computing	Level 3	TR	2 years
Digital Software Development	T Level	SA	2 years
Digital Support and Security (Cyber Security)	T Level	CH/SA/TR	2 years

Computing & IT

We are switched on

Step into the world of tech and start building the systems, software and solutions that power everyday life.

Available at: Chippenham, Salisbury, Trowbridge

Train in specialist IT suites

Learn using industry-standard software and specialist facilities, including our PC suites, IT laboratories and our immersive CAVE (Computer Aided Virtual Environment).

Digital technologies

Develop practical skills in coding, networking, software development and cyber security while working on real-world projects that prepare you for the fast-moving technology industry.

Creative Computing

Combine coding with creativity to design websites, apps, interactive experiences and digital products. Working across technology, design and innovation, you'll develop a portfolio that showcases both your technical ability and creative thinking.

Where it can take you:

- Support Technician
- Network Engineer
- Systems Analyst
- Software Developer
- Web Developer

Progression

Progress to university, an apprenticeship or start your career in the digital and technology world.

Scan to explore computing and IT courses

Where it can take you:

- Bricklayer
- Carpenter or Joiner
- Plumber
- Electrician
- Painter or Decorator

WE ARE Construction & Trades

"One day I'd like to turn furniture making into a side business. I enjoy the precision and attention to detail that comes with bench joinery, and there's nothing better than seeing a finished piece and knowing I created it myself. While I'm about to start a career as a Brick Technician, I plan to keep developing my woodworking skills and creating projects in my own time."

- Sian, Level 2

Construction & Trades

We are building our future

Gain the practical skills and knowledge you need for a career in construction. You'll learn your trade through hands-on training while building an understanding of how construction projects work.

Available at: Chippenham, Salisbury and Trowbridge

Build your skills on site

You will have access to industry-standard equipment and materials to help develop your skills through practical sessions covering a wide range of professional techniques.

Scan to explore construction and trades courses

Progression

Students move into apprenticeships or straight into employment in the construction industry.

Full-Time Courses	Level	Location	Duration
Bricklaying	Level 1	CH/SA/TR	1 year
Carpentry and Joinery	Level 1	CH/SA/TR	1 year
Multi-trade Construction Skills	Level 1	CH/SA/TR	1 year
Painting and Decorating	Level 1	TR	1 year
Bench Joinery	Level 2	CH/TR	1 year
Bricklaying	Level 2	CH/SA/TR	1 year
Electrical Installation	Level 2	SA/TR	1 year
Painting and Decorating	Level 2	TR	1 year
Plumbing	Level 2	CH/SA/TR	1 year
Site Carpentry	Level 2	CH/SA/TR	1 year

"My next step is to continue studying Countryside Management, either at university or with an apprenticehip. I've always been interested in the countryside, and the course has been a great introduction to the industry. One of the most interesting areas I've explored is deer management, which opened my eyes to the important role this plays in protecting our woodlands and natural environments."

- Joe, Level 3

WE ARE Countryside Management

Countryside Management

We are working outdoors

Develop the skills and knowledge needed to work in countryside and environmental roles. You'll learn how to manage land, protect habitats and understand the natural environment.

Available at: Lackham

Train across our 500-acre estate

Explore our Lackham estate, including river frontage, wetlands, ancient woodland and farmland. You'll play an active role in managing and developing the estate, gaining hands-on experience in conservation and land management.

Where it can take you:

- Countryside Ranger
- Research Warden
- Habitat Management Operative
- Landscape Conservationist
- Countryside Management Officer

Progression

Next steps could be university to continue studying or straight into industry.

Scan to explore countryside management courses

Full-Time Courses	Level	Location	Duration
Land & Wildlife Management (Conservation)	Level 3	LA	2 years

"I plan to study Criminal Psychology at university. What fascinates me most about criminology is understanding why people make the choices they do and what can lead someone into criminal behaviour. I've particularly enjoyed the case studies, which bring the subject to life and have helped me develop a deeper understanding of the psychology behind crime."

- Ellie, Level 3

WE ARE Criminology & Law

Criminology & Law

We are investigating crime

Explore crime, law and the criminal justice system, from what drives criminal behaviour to how crimes are investigated and the powers used to keep communities safe.

Available at: Lackham, Salisbury, Trowbridge

Explore real-world issues

Examine real-world cases while exploring criminology, criminal investigations, police powers and the law, custodial care and the wider justice system.

You'll develop your skills in research, analysis and communication while gaining an understanding of the issues facing policing, law and protective services today.

Where it can take you:

- Police Officer
- Probation Service
- Law and legal services
- Crime Analyst
- Prison Officer
- Social and community roles

Progression

Students progress to university or start careers in public or protective services.

Scan to explore criminology and law courses

Full-Time Courses	Level	Location	Duration
Criminology (Protective Services)	Level 2	LA/SA/TR	1 year
Criminology (Protective Services)	Level 3	LA/SA/TR	2 years

"My goal is to become a SENCO and support children with additional needs. I've always had a natural connection to children and wanted to build on that by developing my knowledge and skills. I've particularly enjoyed the creative side of the course and learning about areas of childcare that were completely new to me. My next step is to progress onto Level 2 Childcare and continue working towards the career I want."

- Shannon, Level 1

WE ARE Early Years Education & Childcare

Early Years Education & Childcare

We are shaping young lives

Play a part in supporting children as they learn and grow.

Every day brings something new as you develop the skills and confidence to support child development.

Available at: Chippenham, Salisbury and Trowbridge

Build skills through real experience

Take part in practical activities and real-life scenarios, developing your skills in communication, safeguarding and planning. You'll also get involved in fundraising projects, building confidence in teamwork and organisation.

Where it can take you:

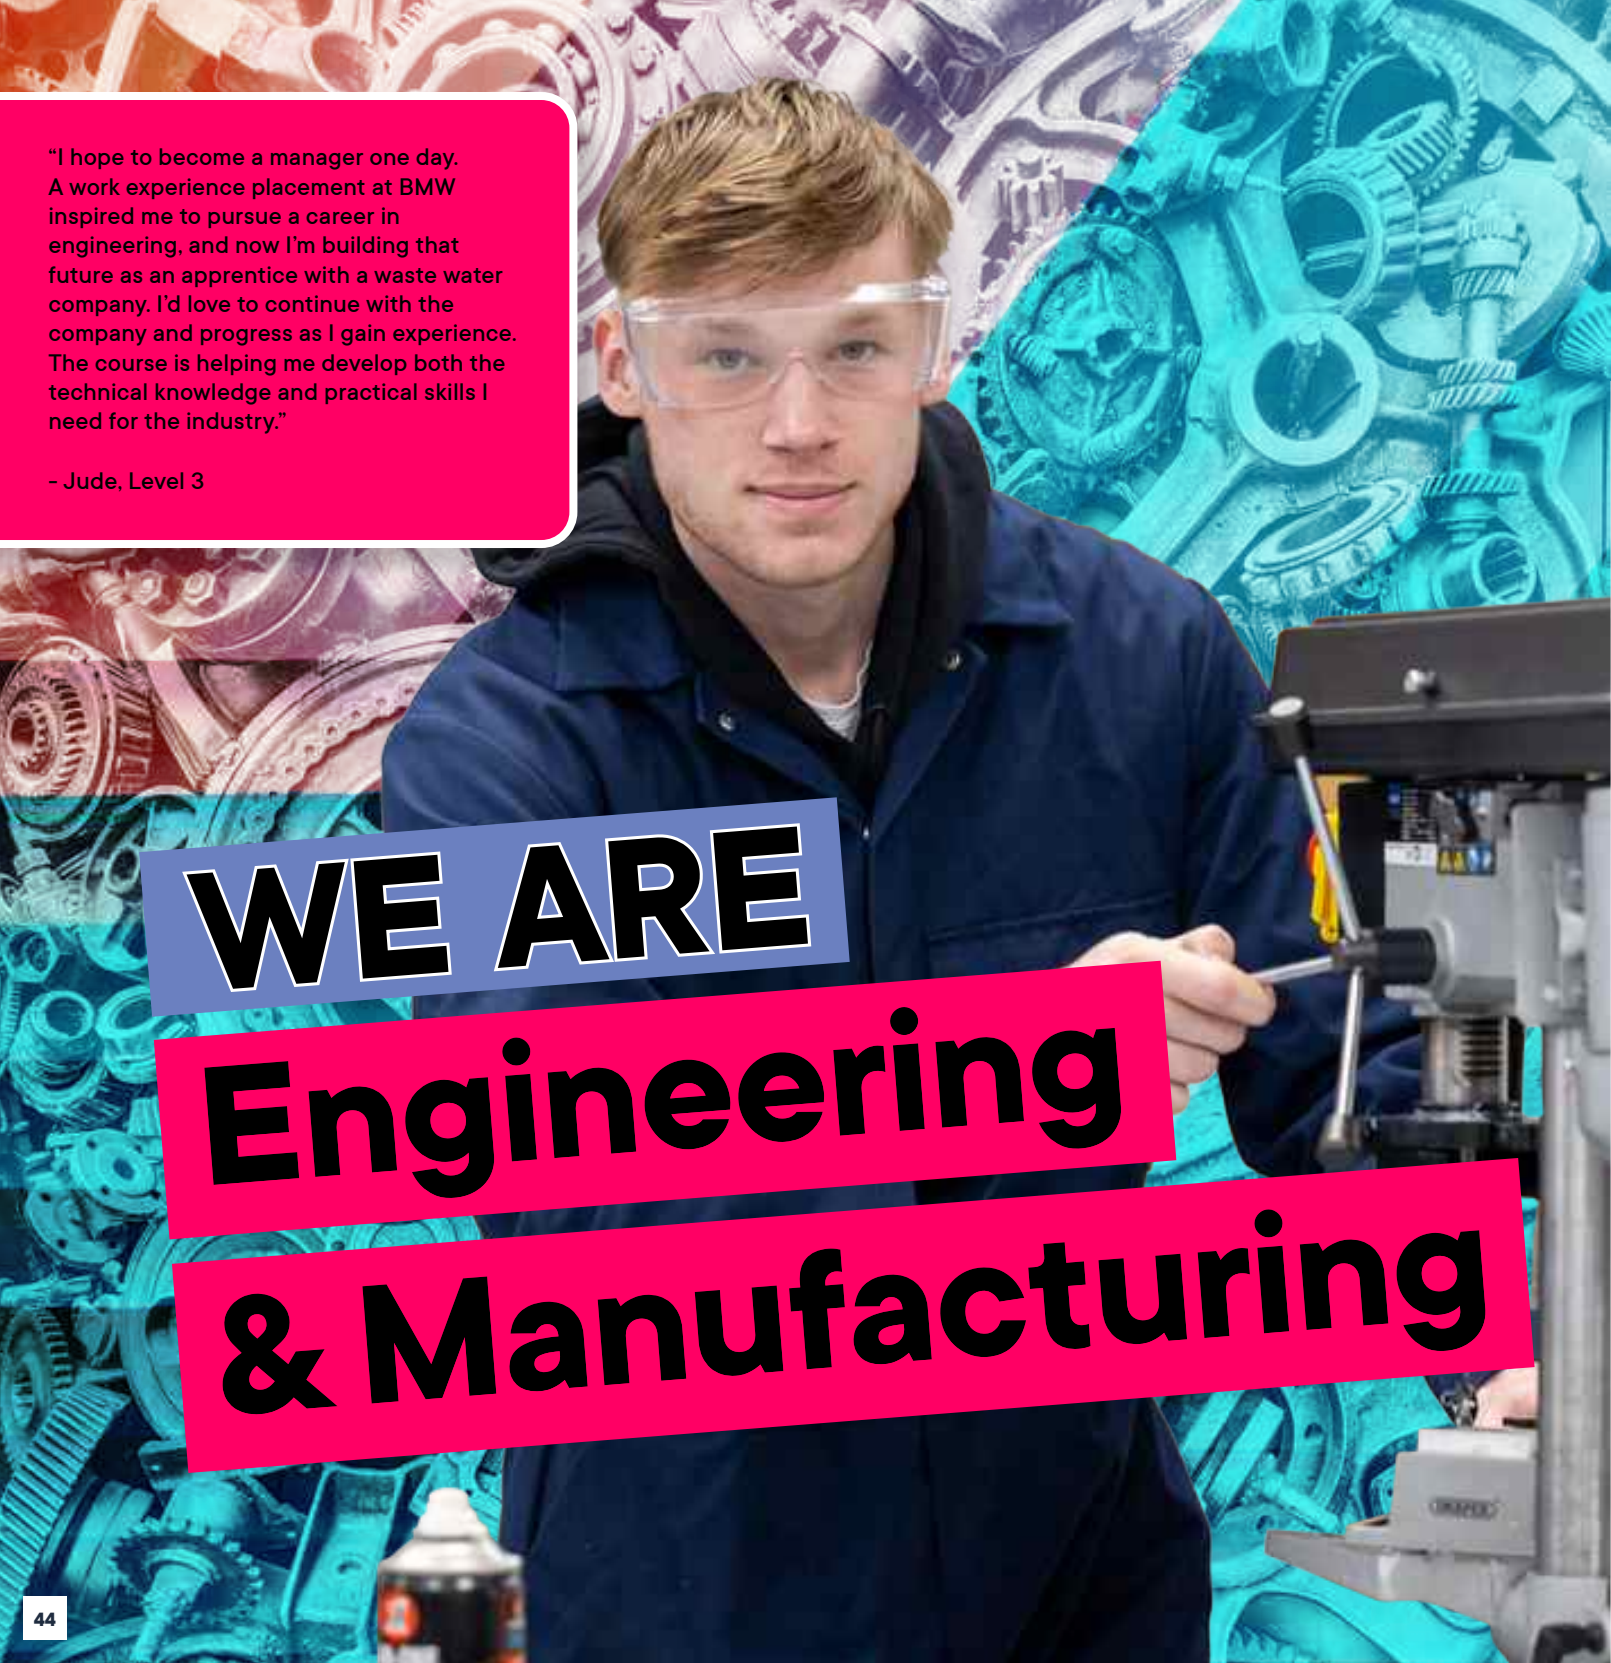

- Teacher
- Childminder or Nanny
- Practitioner in nurseries or pre-schools
- Child Psychologist
- Speech and Language Therapist
- Children's Nurse
- Youth Worker

Scan to explore early years education and childcare courses

Progression

Progress to university to study primary education, early childhood studies and children's nursing.

Full-Time Courses	Level	Location	Duration
Caring for Children under Five	Level 1	CH/SA/TR	1 Year
Early Years Practitioner	Level 2	CH/SA/TR	1 Year
Education & Childcare (Early Years Educator)	T Level	CH/SA/TR	2 years

"I hope to become a manager one day. A work experience placement at BMW inspired me to pursue a career in engineering, and now I'm building that future as an apprentice with a waste water company. I'd love to continue with the company and progress as I gain experience. The course is helping me develop both the technical knowledge and practical skills I need for the industry."

- Jude, Level 3

WE ARE Engineering & Manufacturing

Engineering & Manufacturing

We are solving problems

Design, build and test as you develop practical skills for a career in engineering.

Available at: Chippenham and Salisbury

Train in real engineering environments

Work in specialist workshops using industry-standard equipment and technology. You'll study a range of topics including mathematics, materials, mechanical drawing, design and testing - all essential for a career in engineering.

You'll also benefit from strong links with industry partners, giving your insight into different working environments and helping you understand the standards and practices used by leading companies.

Where it can take you:

- Project Engineer
- Electronics Engineer
- Aerospace Engineer
- CAD Operator

Progression

Students progress to university, an apprenticeship or move into employment in the engineering and manufacturing sector.

Scan to explore engineering and manufacturing courses

Engineering and Manufacturing: Maintenance, Installation and Repair	T Level	CH/SA	2 years

"My goal is to progress to university and eventually become an equine surgeon. I've always loved horses and knew I wanted a career in the industry. The course has given me experience across different areas of the equine sector, helped me build industry connections and introduced me to lots of new opportunities. I particularly enjoy the biology side of the course and learning how horses work, both inside and out."

- Summer, Level 3

WE ARE Equine

Equine

We are working with horses

Develop the skills and knowledge needed for a career in the equine industry. You'll learn how to care for, manage and work with horses in a professional environment, with both riding and non-riding options available.

Available at: Lackham

Train in professional equine yards

Study at our Lackham campus with expert teaching and gain valuable off-site experience at Rein & Shine Equestrian Centre, which was previously ranked SEIB Large Riding School of the Year.

You'll develop practical skills in horse care, handling and stable management, while building your understanding of health, behaviour and welfare.

There's also opportunities to take part in industry placements and work experience with a range of equine employers, including events such as Badminton Horse Trials.

Where it can take you:

- Coach or Instructor
- Equine Assisted Therapist
- Equine Veterinary Nurse
- Freelance Rider
- Stud, competition, livery, racing groom

Progression

Students start employment, apprenticeships or higher education where students have studied a range of degrees.

WE ARE Games Development & Esports

#TechTrowbridge

"I'm still deciding whether university or employment will be my next step, but I know I want to continue building a career in the industry. I chose the course because I was interested in software development, and it's introduced me to a wide range of skills, including coding and 3D modelling. I've particularly enjoyed creating digital environments and developing projects that combine both technical and creative skills."

- Abdou, Level 3

Games Development & Esports

We are levelling up

Get ready for a career in the fast-growing games and esports industries. Choose your path and build specialist knowledge in either game development or competitive esports.

Available at: Chippenham, Salisbury, Trowbridge

Games development

Design and build your own games while learning coding, game design, 3D modelling and animation, and how games are created from concept to completion.

Esports

Build your skills in competitive gaming while exploring areas like teamwork, performance, streaming, content creation and the wider esports industry.

Create, compete and level up

Access high-spec gaming PCs, development software and dedicated digital learning spaces designed to support your training. At our Trowbridge campus, you'll also benefit from Tech Trowbridge, our specialist digital and gaming hub, designed to reflect real industry environments.

Where it can take you:

- Animator
- Software Developer
- Games Developer
- Web Developer or Designer

Progression

Move on to university or straight into employment, previous students have gone on to work at companies like Rockstar Games, EA and Ubisoft.

"One day I'd like to be self-employed. This course has given me the skills, confidence and hands-on experience. I love the social side of barbering, and there's nothing better than seeing how much confidence a fresh cut can give someone."
- Leon, Level 2
WE ARE
Hair & Beauty

Hair & Beauty

We are building confidence

Get ready for a career in hairdressing, barbering or beauty. You'll build real skills, grow your confidence and start working with clients in a professional salon environment.

Available at: Chippenham, Salisbury, Trowbridge

Train in salons open to the public

Step into our on-site salons and work with real clients early on, using industry-standard products and equipment. With support from experienced tutors, you'll develop skills in cutting, colouring and styling, barbering techniques and a wide range of beauty treatments, while building the confidence and customer service skills employers are looking for.

You'll also take part in workshops, trips and industry experiences with well-known brands, helping you stay up to date with the latest trends and grow your network.

Where it can take you:

- Hairdresser
- Barber
- Beauty Therapist
- Nail Technician
- Salon Manager
- Spa Therapist

Progression

Students have found employment at local barbershop, salons and spas or started their own businesses.

Health & Social Care

We are caring for others

Want to make a difference in peoples' lives? Get ready for a career in health and social care, building the knowledge, practical skills and confidence to support people across a range of settings.

Available at: Chippenham, Salisbury, Trowbridge

Putting care into practice

Train in specialist learning spaces designed to reflect real health and care settings, helping you build practical skills and confidence.

At our Salisbury campus, you'll also benefit from our dedicated Healthcare Zone, featuring a healthcare training ward, mock ambulance, single-bed observation room and a simulated home care environment.

Explore topics such as communication, safeguarding, mental health and wellbeing, while understanding how to support individuals with different needs. You'll also take part in work placements and industry experiences, giving you valuable insight into the sector and helping you prepare for a rewarding career.

Where it can take you:

- Nurse
- Midwife
- Paramedic
- Residential Care Assistant
- Social Worker

Progression

This course opens doors to a range of higher education pathways such as adult nursing, occupational therapy and social work.

Scan to explore health and social care courses

"My goal is to build a career in floristry, and this course has given me a great foundation to get started. I've developed my knowledge of plant care and identification, while gaining practical experience that will help me in the industry. One of my favourite parts of the course has been creating and maintaining my own plot, which has allowed me to be creative and put my learning into practice."

- Ruby, Level 2

WE ARE Horticulture

Horticulture

We are working with nature

Turn your passion for the outdoors into a career. You'll build practical skills, work with plants and help create and care for green spaces.

Available at: Lackham

Grow your skills outdoors

Train across our extensive Lackham campus, using gardens, glasshouses and land to build your skills in a hands-on setting.

You'll learn about plant care, propagation, landscaping and grounds maintenance, while developing your understanding of sustainability.

See the results of your work grow over time as you develop practical and hands-on skills.

Where it can take you:

- Gardener
- Greenkeeper
- Tree Surgeon
- Horticulturist
- Garden Designer
- Estate Manager

"I know this is just the start of my career in Land Based Engineering, with university or an apprenticeship as my next step. I've always been interested in machines and wanted to understand how they work and how to fix them. Being able to get hands-on and repair machinery that's used on the farm has been really rewarding, and it's helping me build the skills for a career I'm genuinely passionate about."

- Chester, T Level

WE ARE Land Based Engineering

Full-Time Courses	Level	Location	Duration
Land Based Engineering	Level 2	LA	1 year
Agriculture, Environmental and Animal Care – Land Based Engineering	T Level	LA	2 years

Land Based Engineering

We are working with machinery

Get ready for a career in land based engineering, working with the machinery that powers one of the UK's biggest industries. You'll build practical skills and keep up with the latest technology used in agriculture and beyond.

Available at: Lackham

Get hands-on with real machinery

Work in purpose-built workshops using welding and fabrication equipment, machinery diagnostics and a wide range of tractors and land based machinery.

Learn how to maintain, service and repair equipment, while also developing practical skills in cultivation, including ploughing, tillage, sowing and spreading on the 500-acre Lackham estate.

You'll also benefit from strong industry links, with opportunities for work experience to help you build skills and prepare for your next steps.

Where it can take you:

- Precision Farming Engineer
- Technical Service Engineer
- Agricultural Technician
- Machinery Operator

Progression

Move on to further studies at university or onto successful employment in land based engineering.

Scan to explore land based engineering courses

"I plan to continue my journey with the Level 3 Motorsport Engineering course and potentially progress to the university-level programme at Castle Combe. I love the teamwork that comes with motorsport and the challenge of working in the workshop. Getting hands-on with vehicles and learning new skills every day is what makes the course so enjoyable."

- Almamy, Level 2

WE ARE Motorsport Engineering

Motorsport Engineering

We are in the driving seat

Want to work in a fast-paced, high-performance industry? Prep for a career in motorsport engineering, building the skills and knowledge to work on high-performance vehicles.

Available at: Chippenham

Get up to speed in specialist workshops

Train in dedicated workshops using industry-standard tools and equipment, working on a range of vehicles and engines. You'll develop the skills to maintain, repair and improve performance, while building your understanding of mechanical systems and motorsport technology.

Take part in practical projects and visit Castle Combe Circuit on race days, giving you real insight into the industry. It's also home to our specialist University Centre, so you can continue your studies with us and progress into higher education.

Where it can take you:

- Design Engineer
- Chassis Engineer
- Electronics Technician
- Powertrain Engineer
- Calibration Engineer

Progression

Students start employment, apprenticeships and higher education, with some continuing their studies at our University Centre or going on to compete in motorsport.

Discover Apprenticeships

Start your career from day one. With an apprenticeship, you'll earn a wage, gain real experience and build the skills employers are looking for - all while working towards a nationally recognised qualification.

We're a leading provider of apprenticeships in the South West, working with around 1,000 employers and delivering 60+ apprenticeship programmes across a wide range of sectors.

What is an apprenticeship?

An apprenticeship is a job where you learn while you work. You'll be employed by a company, earning a salary and gaining hands-on experience, while also studying towards your qualification.

You'll spend most of your time in the workplace, learning directly from industry professionals, with dedicated support from our apprenticeship team throughout your journey.

Why choose an apprenticeship?

- Earn a wage from day one
- Gain real, hands-on experience in your chosen industry
- Work alongside experienced professionals
- Achieve nationally recognised qualifications
- Develop skills employers are actively looking for
- Get support from a dedicated college assessor
- Progress into full-time employment or higher-level study

Discover our Apprenticeship courses online for more details

University Centre

You don't have to go far to go further

Build on your success and take your next step into higher education. You don't have to go far to go further - you can continue your journey with us, closer to home.

We offer a range of higher education courses right here at Wiltshire College & University Centre, so you can build on your skills without the need to move away.

You'll learn in a supportive environment with smaller class sizes, expert tutors and strong links to industry. Our courses are designed with the needs of employers in mind, helping you develop the skills and knowledge needed for today's job market.

Whether you're looking to specialise, progress in your chosen field or explore something new, our University Centre gives you the chance to stay local and achieve more.

Discover our higher education courses online for more details
